Grace has publicly admitted to going to NA meetings in many occasions. Well, I met her in the late 1980's when i ended up in an NA meeting after being a terrible teen. I was 18 and strung out on coke. The week I met her, I was about two days out of the drunk tank in Marin county. She was one of about 8 people in the NA meeting when I landed in my first meeting. At first, I didnt recongnize her. I heard White Rabbit, but my thing was more ACDC or Kiss at the time.

Anyway, so i forget when it was, but this one time she shared how "White Rabbit" came about and I was really impressed with not just the end product, but gained an appreciation for the effort, time, energy, and patience that she put into her art - and I guess I saw her as an artist instead of a famous person.

Of course, she had no idea of it's longevity or the impact it makes on our culture. [or did she?]

IMHO, this [Letterman Interview linked here](#) is a good one to watch. She was clean and sober and re-entering the rockstar role with Jefferson Starship.

From 2007

Rebooted one more time...
Jefferson Airplane>Jefferson
Starship>Starship>Jefferson Starship!!

This is Cathy Richardson. She is the new Front Woman for Jefferson Starship.

What's super special about Cathy is she was Janis Joplin in "Janis" on Broadway. During the 1960's in SF's North Beach, Janis and Grace became besties. The friendship between Joplin and Slick was such a deep one that it affected the whole of the hippie movement, and it has now gone down in pop culture history as one of the most iconic camaraderies.*

Grace chose to retire from singing. She did collaborate with Cathy on new JS material. !!
