Lara Croft:

A Magical Journey

Synopsis

Lara enters a magical realm of reality to free the minds of young people around the world.

The Beginning

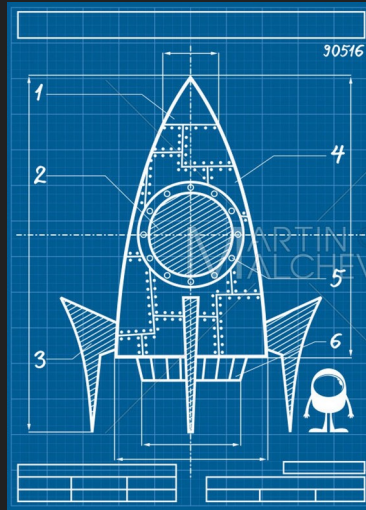

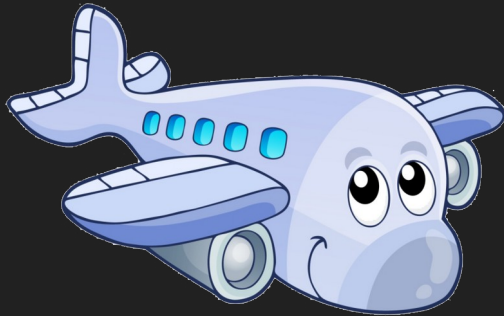

While cataloging artifacts in the University of Avalon Warehouse, Lara stumbles upon an old red upright piano that is missing some keys.

Not knowing it's a magical piano, she begins to play her favorite Miles Davis song, "Sketches of Spain" becoming hypnotized by the odd sound of the old piano and nods off to a dreamy sleep.

The Middle

Lara's mother comes to her in her dream and tells her she is about to begin a trip. She must choose a mode of transportation to reach her destination.

Tech City Challenge Level

Lara must defeat megalomaniacal villains controlling the minds of young people.

Giant Lara Level

Giant Lara must navigate through a magical mushroom field, win a 3-D chess game against men, and rescue rabbits from being hunted

The Finale

Lara wins all levels, frees the minds of millions of young people and returns back to the Avalon University Warehouse where she is greeted by the artist Pink with a special performance.
